

### URL to GitHub Repository:

### URL to Your Coding Assignment Video:

After watching the video, *Source Control with git*, you should have already set up a GitHub account for this program.

If you have **not** setup your GitHub account, **review the above video in the *Week 3: Weekly Videos and Curriculum*** and set your account up before proceeding with this assignment.

### Instructions:

- Create a new repository on GitHub for this week's assignments and push this document, and any files that you have created to the repository.
- Include the URLs for this week's repository and video where instructed.
- Submit this document as a .PDF file in the LMS.

### Assignment Steps:

- The link below has a zipped file that contains an empty directory (folder) for your assignments.
- Download the file to your computer and unzip it.
- This directory (folder) should be used to organize each week's projects in the course.

[https://drive.google.com/file/d/1WDc\\_WJ8l0MfwbrbmtMsxHdTpupZsPjXT/view](https://drive.google.com/file/d/1WDc_WJ8l0MfwbrbmtMsxHdTpupZsPjXT/view)

- 
- Following the Git/GitHub tutorial in your week 0 video:
  - Create a directory (folder) inside **Week 03** directory
  - Create a repository on the GitHub website.
  - **Push** your directory of files to GitHub as instructed in the video.
  - After your first push, please ensure that you make some changes to your directory (folder), such as adding a new file or changing your code.
  - **Push** those changes to your repository a second time (as shown in the video).

<https://www.youtube.com/watch?v=NGeksLUB1e8>

- When complete, paste a screenshot of your terminal or command prompt that

shows the commands above completed.

```
C:\Users\Windows 10 Pro\Documents\1 Promineo Tech Coursework\Week 3\Test Repository Week 3>mk dir "4th times the charm"
'mk' is not recognized as an internal or external command,
operable program or batch file.

C:\Users\Windows 10 Pro\Documents\1 Promineo Tech Coursework\Week 3\Test Repository Week 3>mkdir "4th times the charm"

C:\Users\Windows 10 Pro\Documents\1 Promineo Tech Coursework\Week 3\Test Repository Week 3>git status
On branch main
Your branch is up to date with 'origin/main'.

Changes not staged for commit:
  (use "git add/rm <file>..." to update what will be committed)
  (use "git restore <file>..." to discard changes in working directory)
        deleted:    Push 2.txt

no changes added to commit (use "git add" and/or "git commit -a")

C:\Users\Windows 10 Pro\Documents\1 Promineo Tech Coursework\Week 3\Test Repository Week 3>git commit -am "So many changes lulz"
[main bb47215] So many changes lulz
 1 file changed, 1 deletion(-)
 delete mode 100644 Push 2.txt

C:\Users\Windows 10 Pro\Documents\1 Promineo Tech Coursework\Week 3\Test Repository Week 3>git push -u origin main
Enumerating objects: 3, done.

   8cae5f4..bb47215  main -> main
branch 'main' set up to track 'origin/main'.

C:\Users\Windows 10 Pro\Documents\1 Promineo Tech Coursework\Week 3\Test Repository Week 3>
```

I had to redo it a couple times but should be good now.

### Video Steps:

- Create a video, up to five minutes max, showing and explaining exactly what you did for this assignment Git/GitHub.
- This video should be done using screen share and voice over.
- This can easily be done using Zoom, although you don't have to use Zoom, it's just what we recommend.
  - You can create a new meeting, start screen sharing, and start recording.
  - This will create a video recording on your computer.
- This should then be uploaded to a publicly accessible site, such as YouTube.
  - Ensure the link you share is **PUBLIC** or **UNLISTED**!
  - If it is not accessible by your grader, your project will be graded based on what they can access.
